

## **Angus Gold Continues to Expand Land Package at the Golden Sky Project, Wawa**

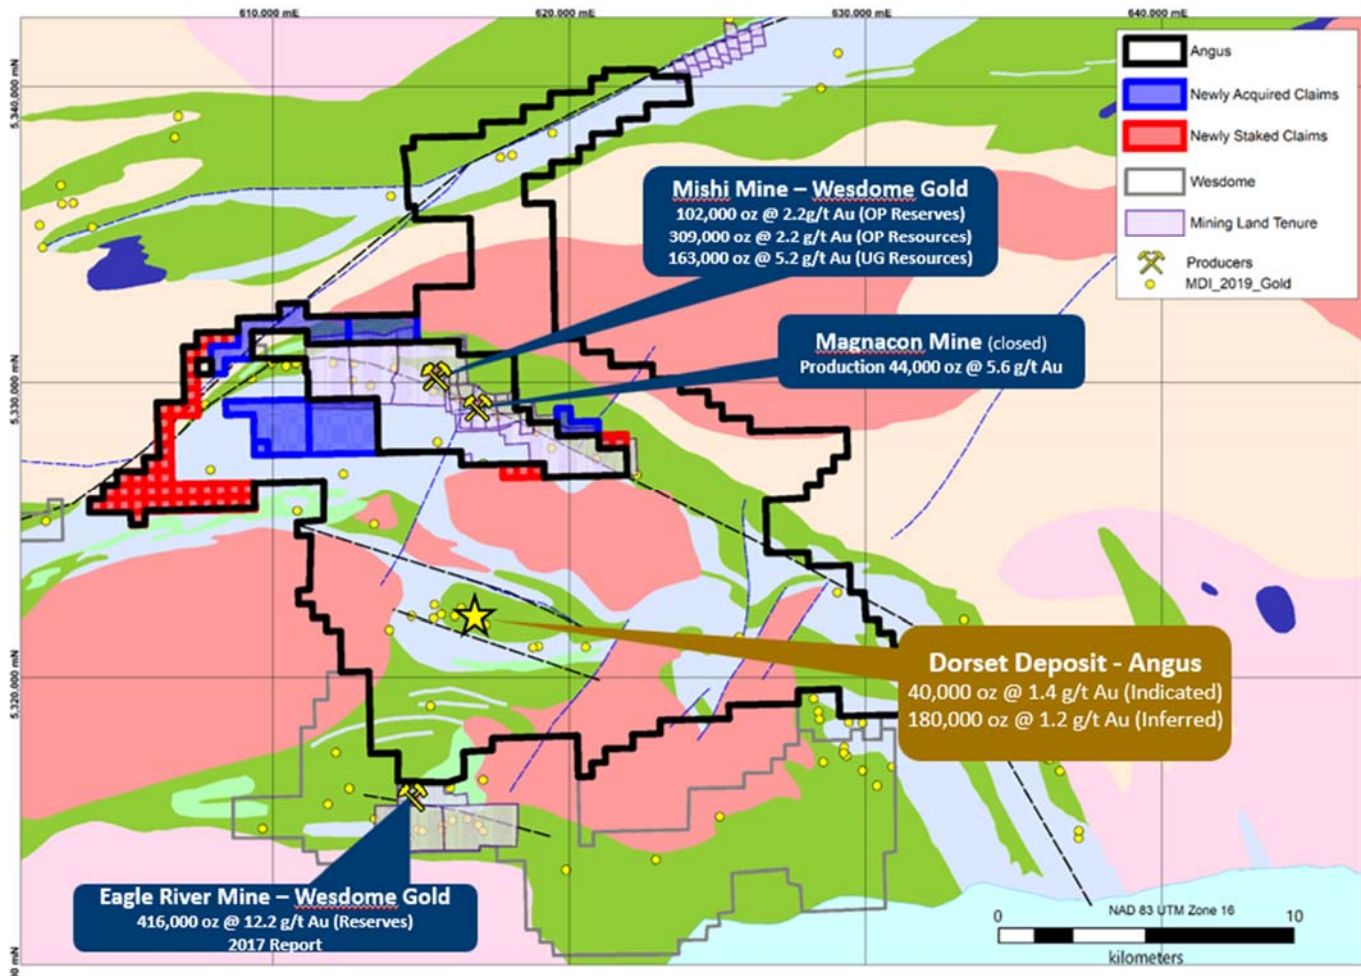

**TORONTO, February 28, 2022** – **ANGUS GOLD INC. (TSX-V: GUS | OTC: ANGVF)** (“**Angus**” or the “**Company**”) is pleased to announce that it has completed the acquisition of a 100% interest in six (6) mineral claims (the “**Acquisition Claims**”) that are contiguous and adjacent to the Golden Sky Project located in Wawa, Ontario. The Company also announces that it has recently staked an additional 49 mineral claims (the “**Staked Claims**”). The Golden Sky project is the site of significant new gold discoveries in the banded iron formation horizon (“**BIF**”) and is also host to a historic gold resource in the Dorset Zone. The consolidated Golden Sky land package now stands at 261 square kilometres.

Steve Burleton, Chief Executive Officer of Angus, states: “We are delighted that we were able to continue expanding the Golden Sky project, particularly after making the two new gold discoveries in the BIF and drilling some of the best results to-date at Dorset. Since we started our exploration program at Golden Sky in early 2020, we are encouraged by the positive results of this underexplored land package. We continue to believe that this land package has great potential for more significant discoveries and are very excited about our upcoming drill program. As the claims are contiguous to the project, ongoing regional exploration programs will include the new areas.”

The Acquisition Claims were acquired on an arm’s length basis in consideration for a one-time cash payment of \$14,000, the issuance of 50,000 common shares of the Angus and the grant of a 1.5% net smelter return royalty, 33.3% of which can be purchased by the Company for \$500,000.

Completion of the acquisition is subject to the receipt of all regulatory approvals including the approval of the TSX Venture Exchange. The common shares are subject to a statutory four-month hold period.

## The Golden Sky Project

The 100%-owned Golden Sky Project is located within the Mishibishu Lake Greenstone Belt of Northern Ontario, which is host to the high-grade Eagle River and the Mishi open-pit gold mines of Wesdome Gold Mines Ltd. (“Wesdome”). The Company’s 261-square-kilometres land package is located approximately 50 kilometres west of the town of Wawa and is situated immediately between the two Wesdome mines. The project is host to the near-surface Dorset Gold Zone, which contains a historic estimated resource (using a 0.50 g/t Au cut-off) consisting of an indicated resource of 40,000 ounces of gold (780,000 tonnes grading 1.4 g/t Au), and an inferred resource of 180,000 ounces of gold (4,760,000 tonnes grading 1.2 g/t Au). For greater details on the Golden Sky Project, please refer to the NI 43-101 technical report for the Golden Sky Project entitled, “NI 43-101 Technical Report Wawa Property Ontario, Canada” dated February 18, 2020, and available on the Company’s SEDAR profile.

## Qualified Person

The scientific and technical content of this press release has been reviewed and approved by Breanne Beh, P. Geo, who is an employee of the Company and a “Qualified Person” as defined by *National Instrument 43-101 - Standards of Disclosure for Mineral Projects* (“NI 43-101”).

## About Angus Gold:

Angus Gold Inc. is a Canadian mineral exploration company focused on the acquisition, exploration, and development of highly prospective gold properties. The Company’s flagship project is the Golden Sky Project in Wawa, Ontario.

Insiders currently own approximately 47% of the Company and New Gold Inc. (TSX: NGD) approximately 9.9%, each based on the number of issued and outstanding common shares.

On behalf of Angus Gold Inc.,

Steve Burleton  
Chief Executive Officer and Director

## Forward-Looking Statements

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release. This News Release includes certain "forward-looking statements" which are not comprised of historical facts. Forward-looking statements include estimates and statements that describe the Company’s future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as “believes”, “anticipates”, “expects”, “estimates”, “may”, “could”, “would”, “will”, or “plan”. Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to the Company, the Company provides no assurance that actual results will meet management’s expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward-looking information in this news release includes, but is not limited to, the Company’s objectives, goals or future plans, statements, exploration results, potential mineralization, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to: the ability to anticipate and counteract the effects of COVID-19 pandemic on the business of the Company, including without limitation the effects of COVID-19 on the capital markets, commodity prices supply chain disruptions, restrictions on labour and workplace attendance and local and international travel, failure to receive requisite approvals in respect of the transactions contemplated by the Agreement, failure to identify mineral resources, failure to convert estimated mineral resources to reserves, the inability to complete a feasibility study which recommends

a production decision, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, political risks, inability to fulfill the duty to accommodate First Nations and other indigenous peoples, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry, and those risks set out in the Company's public documents filed on SEDAR. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
