1. Nature and continuance of operations

Angus Gold Inc. ("Angus" or the "Company") was incorporated under the Business Corporations Act (British Columbia) on September 28, 2010. Angus is a Canadian gold exploration company focused on the acquisition, exploration and development of mineral properties. The Company's principal current project is the Golden Sky Project located in Wawa, Ontario. The Company's common shares are listed for trading on the TSX Venture Exchange ("TSX-V") under the symbol "GUS".

On November 7, 2019, the Company completed the acquisition of 100% interest in the Slate Bay Property, Red Lake, Ontario, from Luxor Exploration Inc. and Canstar Resources Inc. The acquisition of the Slate Bay Property constitutes the Company's Qualifying Transaction under the policies of the TSX-V.

On September 16, 2020, the Company changed its corporate name from Angus Ventures Inc. to Angus Gold Inc. There was no change to the Company's ticker symbol in connection with the name change.

On April 5, 2021, the Company commenced trading on the OTCQB Venture Market operated by OTC Markets Group in the United States under the ticker symbol "ANGVF".

The Company's head office, principal address and registered and records office is located at 18 King Street East, Suite 902, Toronto, Ontario, M5C 1C4.

These unaudited condensed interim financial statements have been prepared with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. Management believes the Company has sufficient working capital to maintain its activities for the upcoming fiscal year.

In March 2020, the World Health Organization declared coronavirus (COVID-19) a global pandemic. This contagious disease outbreak, which has continued to spread, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. The Company continues to actively monitor the impact of the COVID-19 pandemic, including the impact on economic activity and financial reporting. To date, our operations have remained stable as the pandemic continues to progress and evolve but it is difficult to predict the full extent and duration of resulting operational and economic impacts for the Company, which are expected to impact a number of reporting periods. This uncertainty impacts judgements made by the Company, including those relating to determining the recoverable values of the Company's non-current assets. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the interpretation issued by the IFRS Interpretations Committee. These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of September 29, 2022, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended January 31, 2022. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending January 31, 2023 could result in restatement of these unaudited condensed interim financial statements.

Significant estimates and assumptions

Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.
