1. Nature and continuance of operations

Angus Ventures Inc. ("Angus" or the "Company") was incorporated under the Business Corporations Act (British Columbia) on September 28, 2010. On September 1, 2017, the Company completed its Initial Public Offering and was classified as a Capital Pool Company Canadian Pool Company ("CPC") as defined in the TSX Venture Exchange ("TSX-V") Policy 2.4. The Company's common shares were listed for trading on the TSX-V under the trading symbol "GUS.P" on September 1, 2017 and commenced trading at the open on September 6, 2017.

On April 25, 2019, the Company entered into a purchase agreement (the "Purchase Agreement") with Luxor Exploration Inc. ("Luxor") and Canstar Resources Inc. ("Canstar") to acquire an aggregate 100% interest in the Slate Bay Property. On November 7, 2019, the Company completed the transaction with Luxor and Canstar. The acquisition of the Slate Bay Property constitutes the Company's Qualifying Transaction ("QT") under the policies of the TSX-V. On November 14, 2019, the Company resumed trading on the TSX-V under the trading symbol "GUS".

The principal business of the Company is the acquisition, exploration and evaluation of mineral properties, and developing these properties further or disposing of them when evaluation is complete.

The Company's head office, principal address and registered and records office is located at 18 King Street East, Suite 902, Toronto, Ontario, M5C 1C4.

These unaudited condensed interim financial statements have been prepared with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. Management believes the Company has sufficient working capital to maintain its activities for the upcoming fiscal year.

In March 2020, the World Health Organization declared coronavirus (COVID-19) a global pandemic. This contagious disease outbreak, which has continued to spread, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the interpretation issued by the IFRS Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending January 31, 2021 could result in restatement of these unaudited condensed interim financial statements.

2. Significant accounting policies (continued)

Significant estimates and assumptions

The preparation of unaudited condensed interim financial statements in accordance with IFRS requires the Company to make estimates and assumptions concerning the future which include the fair value of warrants and stock options using the Black-Scholes option pricing model. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Significant judgments

The preparation of unaudited condensed interim financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments applying to the Company's unaudited condensed interim financial statements include the assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty.

New accounting standard adopted

IFRS 3, Business Combinations ("IFRS 3")

Amendments to IFRS 3, issued in October 2018, provide clarification on the definition of a business. The amendments permit a simplified assessment to determine whether a transaction should be accounted for as a business combination or as an asset acquisition.

The amendments are effective for transactions for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020. The adoption of the amendments had no impact on the Company's unaudited condensed interim financial statements.

IAS 1, Presentation of Financial Statements ("IAS 1")

Amendments to IAS 1, issued in October 2018, provide clarification on the definition of material and how it should be applied. The amendments also align the definition of material across IFRS and other publications.

The amendments are effective for annual periods beginning on or after January 1, 2020 and are required to be applied prospectively. The adoption of the amendments had no impact on the Company's unaudited condensed interim financial statements.

IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8")

Amendments to IAS 8, issued in October 2018, provide clarification on the definition of material and how it should be applied. The amendments also align the definition of material across IFRS and other publications.

The amendments are effective for annual periods beginning on or after January 1, 2020 and are required to be applied prospectively. The adoption of the amendments had no impact on the Company's unaudited condensed interim financial statements.

2. Significant accounting policies (continued)

New accounting standard adopted (continued)

Property and Equipment

Property and equipment are carried at cost, less accumulated depreciation and accumulated impairment losses.

The cost of an item of property and equipment consists of the purchase price, any costs directly attributable to bringing the asset to the location and condition necessary for its intended use and an initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Depreciation is recognized based on the cost of an item of property and equipment, less its estimated residual value, over its estimated useful life at the following rates:

Detail	Percentage	Method
Field equipment	30%	Straight-line

At each financial position reporting date the carrying amounts of the Company's assets are reviewed to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any.

The recoverable amount is the higher of fair value less disposal costs and value in use. In assessing value in use, the estimated future cash flows are discounted at a rate that reflects current market assessments of the pre-tax time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in the unaudited condensed interim statements of comprehensive loss.
