**INTERIM MANAGEMENT'S DISCUSSION AND ANALYSIS -  
QUARTERLY HIGHLIGHTS**

**FOR THE THREE AND SIX MONTHS ENDED JULY 31, 2023**

**(EXPRESSED IN CANADIAN DOLLARS)**

## **Introduction**

The following interim Management's Discussion & Analysis ("Interim MD&A") of Angus Gold Inc. ("Angus" or the "Company") for the three and six months ended July 31, 2023 has been prepared to provide material updates to the business operations, liquidity and capital resources of the Company since its last annual management's discussion & analysis, being the Management's Discussion & Analysis ("Annual MD&A") for the fiscal year ended January 31, 2023. This Interim MD&A does not provide a general update to the Annual MD&A, or reflect any non-material events since date of the Annual MD&A. This Interim MD&A has been prepared in compliance with section 2.2.1 of Form 51-102F1, in accordance with National Instrument 51-102 – Continuous Disclosure Obligations. This discussion should be read in conjunction with the Company's Annual MD&A, audited annual financial statements for the years ended January 31, 2023 and 2022, together with the notes thereto, and unaudited condensed interim financial statements for the three and six months ended July 31, 2023, together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted. The Company's unaudited condensed interim financial statements and the financial information contained in this Interim MD&A are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board and interpretations of the IFRS Interpretations Committee. The unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting. Accordingly, information contained herein is presented as of September 27, 2023, unless otherwise indicated.

For the purposes of preparing this Interim MD&A, management, in conjunction with the Board of Directors (the "Board"), considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of Angus common shares; (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

Further information about the Company and its operations is available on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

This Interim MD&A contains forward-looking information as further described in the "Cautionary Note Regarding Forward-Looking Information" section below. Please also make reference to those risk factors identified or otherwise indirectly referenced in the "Risks and Uncertainties" at the end of this Interim MD&A.

---

Apart from the risk factors noted under the heading "Risks and Uncertainties", management is not aware of any other trends, commitments, events or uncertainties that would have a material effect on the Company's business, financial condition or results of operations.

See "Cautionary Note Regarding Forward-Looking Information" above.

### **Outlook**

The Company intends to continue exploring properties that have the potential to contain precious and base metals. In addition, management will review project submissions, and conduct independent research, for projects in such jurisdictions and commodities as it may consider prospective.

There is no assurance that equity capital will be available to the Company in the future in the amounts or at the times desired or on terms that are acceptable to the Company, if at all. See "Risks and Uncertainties" below.

### **Financial Highlights**

#### Three months ended July 31, 2023 compared with three months ended July 31, 2022

The Company's net loss totaled \$1,207,154 for the three months ended July 31, 2023, with basic and diluted loss per share of \$0.02. This compares with a net loss of \$1,200,217 with basic and diluted loss per share of \$0.03 for the three months ended July 31, 2022. The Company had no revenue in both periods presented. The increase in net loss was principally due to:

- Exploration and evaluation expenditures increased to \$1,273,722 for the three months ended July 31, 2023, compared to \$1,228,275 for the three months ended July 31, 2022. The increase of \$45,447 can be attributed to increased exploration activity. Refer to the heading "Mineral Exploration Properties" below for a summary of the Company's exploration programs for the Company's property portfolio.
- Share-based payments increased in the three months ended July 31, 2023 to \$210,236 compared with \$127,717 for the same period in 2022. The increase is due to the timing of expensing the estimated fair value of stock options and restricted stock units ("RSUs") granted in prior periods. The Company expenses its stock options and RSUs in accordance with the vesting terms of the stock options and RSUs granted.
- Premium on flow-through shares increased in the three months ended July 31, 2023, to \$310,461 compared to \$245,594 for the same period in 2022. The Company has adopted a policy whereby proceeds from flow-through issuances are allocated between the offering of shares and the sale of tax benefits based on the difference between the quoted price of the existing shares and the amount the investor pays for the shares. A liability is recognized for this difference and is extinguished by crediting premium on flow-through shares on a pro-rata basis as the expenditures are made.
- All other expenses related to general working capital purposes.

Six months ended July 31, 2023 compared with six months ended July 31, 2022

The Company's net loss totaled \$2,656,767 for the six months ended July 31, 2023, with basic and diluted loss per share of \$0.06. This compares with a net loss of \$2,147,124 with basic and diluted loss per share of \$0.06 for the six months ended July 31, 2022. The Company had no revenue in both periods presented. The increase in net loss was principally due to:

- Exploration and evaluation expenditures increased to \$2,736,139 for the six months ended July 31, 2023, compared to \$2,167,308 for the six months ended July 31, 2022. The increase of \$568,831 can be attributed to increased exploration activity. Refer to the heading "Mineral Exploration Properties" below for a summary of the Company's exploration programs for the Company's property portfolio.
- Share-based payments increased in the six months ended July 31, 2023 to \$423,795 compared with \$275,725 for the same period in 2022. The increase is due to the timing of expensing the estimated fair value of stock options and restricted stock units ("RSUs") granted in prior periods. The Company expenses its stock options and RSUs in accordance with the vesting terms of the stock options and RSUs granted.
- Premium on flow-through shares increased in the six months ended July 31, 2023, to \$487,909 compared to \$480,987 for the same period in 2022. The Company has adopted a policy whereby proceeds from flow-through issuances are allocated between the offering of shares and the sale of tax benefits based on the difference between the quoted price of the existing shares and the amount the investor pays for the shares. A liability is recognized for this difference and is extinguished by crediting premium on flow-through shares on a pro-rata basis as the expenditures are made.
- Grant from government increased in the six months ended July 31, 2023, to \$140,000 compared to \$nil for the same period in 2022. The increase is due to a government grant received during the period for the Ontario Junior Exploration Program.
- All other expenses related to general working capital purposes.

The Company's total assets at July 31, 2023 were \$5,764,713 (January 31, 2023 - \$2,390,297) against total liabilities of \$1,526,059 (January 31, 2023 - \$806,958). The increase in total assets of \$3,374,416 resulted from the financing of \$6,455,000 completed on April 27, 2023, which was offset by cash spent on exploration and evaluation expenditures and operating costs. The Company has sufficient current assets to pay its existing current liabilities of \$1,526,059 at July 31, 2023. Liabilities include flow-through share liability of \$1,229,763 which is not settled through cash payments. Instead, this balance is amortized against qualifying flow-through expenditures, subject to deadlines imposed by the tax authorities.

Pursuant to the terms of flow-through share agreement, the Company is in the process of complying with its flow-through contractual obligations to subscribers with respect to the Income Tax Act (Canada) requirements for flow-through shares. As of July 31, 2023, the Company is committed to incurring approximately \$4,392,000 in Canadian Exploration Expenditures (as this term is defined in the Income Tax Act (Canada)) by December 31, 2024 in connection with flow-through offerings.

### **Liquidity and Capital Resources**

Management believes that the Company's cash and cash equivalents balance of \$5,555,263 at July 31, 2023 is adequate to cover current expenditures and exploration expenses for the coming year.

The Company may, from time to time, when marketing and financing conditions are favourable, proceed with fundraising to fund exploration and property acquisition projects.

The activities of the Company, principally the acquisition and exploration of properties that have the potential to contain precious and base metals, are financed through the completion of equity transactions such as equity offerings and the exercise of stock options. There is no assurance that equity transactions will be available to the Company in the future in the amounts or at the times desired or on terms that are acceptable to the Company, if at all. See "Risks and Uncertainties" below.

During the six months ended July 31, 2023, the Company completed a non-brokered private placement of 1,500,000 hard dollar shares at a price of \$0.72 and 5,375,000 flow-through shares of the Company at a price of \$1.00 per flow-through share.

As of July 31, 2023, and to the date of this Interim MD&A, the cash resources of the Company are held with Canadian chartered banks.

At July 31, 2023, the Company had cash and cash equivalents balance of \$5,555,263. The increase in cash and cash equivalents of \$3,402,482 from the January 31, 2023 cash and cash equivalents balance of \$2,152,781 was a result of cash outflows in operating activities of \$2,990,805 and cash inflows in financing activities of \$6,393,287.

Operating activities were affected by adjustments of depreciation of \$3,375, share-based payments of \$423,795, premium on flow-through common shares of \$487,909 and net change in non-cash working capital balances of \$273,299 because of a decrease in HST receivable of \$35,085, an increase in prepaid expenses of \$10,394, a decrease in accounts payable and accrued liabilities of \$251,822 and a decrease in due to related parties of \$46,168.

Cash and cash equivalents provided by financing activities was \$6,393,287 for the six months ended July 31, 2023. Financing activities were affected by financing of \$6,455,000, which was offset by share issue costs of \$61,713.

Regardless of whether the Company discovers a significant precious or base metal deposit, its working capital of \$4,235,561 at July 31, 2023 is anticipated to be adequate for it to continue operations for the twelve-month period ending July 31, 2024.

**Golden Sky Project**

The following table summarize the Company’s current exploration activity for the Golden Sky Project and total estimated expenditures for the current period:

<b>Summary of Completed Activities (Six Months Ended July 31, 2023)</b>	<b>(A) Spent During the Six Months Ended July 31, 2023</b>	<b>Plans for the Project</b>	<b>(B) Planned Expenditures</b>
Drilling, Assays, Geological interpretation, 3D Modelling, Ground Geophysics, Outcrop Sampling & Mapping	\$2,733,505	Drilling, Assays, Geological interpretation, 3D Modelling, Ground geophysics, Outcrop Sampling & Mapping	\$2,000,000
<b>Subtotals</b>	<b>\$2,733,505</b>		<b>\$2,000,000</b>
<b>Total (A+B)</b>			<b>\$4,733,505</b>

The Golden Sky Project is located within the Mishibishu Lake Greenstone Belt of Northern Ontario, an extension of the Abitibi Greenstone Belt, and host to the high-grade Eagle River Mine of Wesdome Gold Mines Ltd (“Wesdome”). The Golden Sky Project is located approximately 50 kilometres west of the town of Wawa and is situated immediately between the Eagle River underground mine and the Mishi open pit mine of Wesdome.

Exploration activities and outlook

During the first six months of 2023, the exploration program at the Golden Sky project included 7,770 metres of drilling focused on the Dorset Trend and the new gold discoveries on the Banded Iron Formation (BIF) Zone. Drilling on the Dorset Trend was completed between January and March 2023. The program was focused on testing a newly interpreted structural model to build on the existing strike length of the gold mineralization in the Dorset Zone.

Drilling on the BIF Zone began in early June and continued until the end of July. The drill program was focused on infill holes along the 800m of strike length of the BIF gold mineralization that was defined during the 2022 drill program.

During the month of January, a ground geophysical survey that began in November, was completed. The grid totaled approximately 75 line kms and covered the eastern and western extensions of the banded iron formation as well as a new exploration area called the “Eagle River Splay Area”. The Eagle River Splay Area is located south of the BIF Zone, on the southern-most boundary of the property.

Lastly, a summer mapping and prospecting program commenced in May 2023. The program is aimed at discovering new areas for exploration on the property. Over 600 surface rock samples were collected by the summer crew of geologists.

The remainder of the 2023 exploration program will focus on finishing the drill program on the BIF Zone, completing some helicopter access holes on the Dorset Zone, and drilling the new Eagle River Splay Area. A new ground geophysical survey of approximately 35 line kms is planned on the new Feather River Exploration Area.

<b>Subtotals</b>	<b>\$2,634</b>		<b>\$17,000</b>
<b>Total (A+B)</b>			<b>\$19,634</b>

The Slate Bay Property is an exploration property prospective for a copper-gold-silver skarn mineralized system located in the Red Lake gold mining district in the Province of Ontario. The Property is located 10 kilometres north of the town of Red Lake, Ontario, within the Red Lake greenstone belt and consists of the eight patented mining claims in southern McDonough Township within the Red Lake gold camp. The Property is royalty-free. No resources or reserves exist on the Property.

Exploration activities and outlook

The 2023 exploration program proposed on the Slate Bay property is comprised of a prospecting/mapping and geochemical sampling program (200 soil samples) that would be completed on the property during the fall.

**Share Capital**

As at the date of this Interim MD&A, the Company had a total of 49,101,050 common shares issued and outstanding. An additional 4,610,000 common shares are subject to issuance from stock options outstanding and an additional 1,220,000 common shares from RSUs outstanding. Each stock option will be exercisable to acquire one common share at a price ranging from \$0.28 to \$1.03 per common share with expiry dates ranging from November 6, 2024 to August 15, 2028.

**Disclosure of Internal Controls**

Management has established processes to provide them with sufficient knowledge to support representations that they have exercised reasonable diligence to ensure that the unaudited condensed interim financial statements (i) do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, and (ii) fairly present in all material respects the financial condition, results of operations and cash flow of the Company, in each case as of the date of and for the periods presented by such statements.

In contrast to the certificate required for non-venture issuers under National Instrument 52-109 - Certification of Disclosure in Issuers’ Annual and Interim Filings (“NI 52-109”), the Venture Issuer Basic Certificate filed by the CEO and CFO of the Company does not include representations relating to the establishment and maintenance of disclosure controls and procedures (“DC&P”) and internal control over financial reporting (“ICFR”), as such terms are defined in NI 52-109. In particular, the certifying officers filing such certificate are not making any representations relating to the establishment and maintenance of:

- (i) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the Company in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
- (ii) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of unaudited condensed interim financial statements for external purposes in accordance with IFRS.

The Company's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in such certificate. Investors should be aware that inherent limitations on the ability of the Company's certifying officers of a venture issuer to design and implement, on a cost effective basis, DC&P and ICFR may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports required to be provided under securities legislation.

### **Risks and Uncertainties**

An investment in the securities of the Company is highly speculative and involves numerous and significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Company and its financial position.
